

Din Ho

Software Engineer | Web Developer

ABOUT ME

A self-taught **Software Engineer / Web Developer** seeking an opportunity to contribute and learn at a tech company with global reach. I build websites and web applications with best practices and clean codes.

WORK EXPERIENCE

Web Developer, Indochinese Housing Development Corporation | San Francisco, CA (May 2023)

- Added a job posting for the Executive Director role including a button that directs users to the documentation for the job details on their Get Involved page and a bio description for each board member on their Our Team page with **Wix**. - [Website](#)
- Set up and implemented Wix's quick action bar on the mobile viewport for users to quickly access the client's phone number, email, Instagram page, and Facebook page on their phone.
- Translated added English description to Spanish via Wix's tool for user's language preference.

Web Developer, ACR Glazing Contractors Inc. | Oakland, CA (Jun 2022 - Jul 2022)

- Designed, built, and launched a modern and interactive multi-page website for the clients with **WordPress and custom HTML/CSS**. The website is accessible on mobile devices. - [Website](#)
- Since launching, the number of monthly active visitors has increased to an average of **71 visitors** per month.
- Providing continuous support and updating the website to introduce new features and contents.

Medical Assistant, Golden Gate Spine | San Francisco, CA (Oct 2021 - Feb 2022)

- Introduced more than **120 new patients** to the spine surgeon and specialists through referrals.
- Monitored patients flow while answering phone calls, emails, charting, and scheduling.

Practice Coordinator, UCSF Mission Bay | San Francisco, CA (Jul 2021 - Oct 2021)

- Monitored patients flow while answering phone calls, emails, charting, and scheduling.

PROJECTS

Time Attask | HTML, CSS / Sass, JavaScript, Vite.js, React.js (Apr 2023)

- A customizable to-do app to help increase productivity. Time Attask helps users identify, prioritize, and complete their daily tasks in time intervals with breaks. This web app is responsive and accessible on mobile devices. - [Website](#)

Portfolio Website | HTML, CSS / Sass, JavaScript, Vite.js, React.js (Mar 2023)

- A perfect 100 points portfolio website including a working contact form hosted on Netlify. The website is responsive and accessible on mobile devices. Lighthouse audit score: **100 - Performance, 100 - Accessibility, 100 - Best Practices, 100 - SEO**. - [Website](#)

Photography Website | HTML, CSS / Sass, JavaScript, Vite.js, React.js (Feb 2023)

- A multi-page photographer portfolio website where users can browse and view photo collections through a pop-up carousel image slider. The website is responsive and accessible on mobile devices. - [Website](#)

Precrastinator | HTML, CSS, JavaScript, Node.js, Express.js, MongoDB (Aug 2022 - Sep 2022)

- Collaborated with a team of developers at **100 Devs** as the **Frontend Web Developer** to build a full-stack web app that helps boost users productivity. Designed the user interface for the web app page, login page, create a user page, and landing page with **HTML** and **CSS**. - [GitHub](#)
- Implemented authentication with **Passport.js** and **Express.js**, storing users data in **MongoDB**.

VOLUNTEER

Volunteer, SF Marin Food Bank | San Francisco, CA (Jan 2023 - Present)

- Prepared bags of assorted food for over **60 low-income families** and **seniors** every Tuesday.
